LOOKING AHEAD.

Two schemes are being studied by Senator Mahone of Virginia, to the success of either of which would make him a very important man next year. The first is to organize in Virginia and other Southern States a plan for securing control of the delegations to the National Republican Convention. If he is denied admission, he will take his delegates away and organize independent electoral tickets in Virginia and a few other States, and try to have them elected without being pledged in favor of any Presidential candidates. If he can elect such a ticket, even in Virginia alone, he will take the field after election as a "striker," and will offer his electoral votes to whichever candidate will give him the highest "terms."

These are said to be Mahone's plans. They are bold to recklessness, and the accomplishment of either is very improbable. Mr. Blaine's friends are organizing a "straight-out" Republican movement from the remnants of the party in Virginia, and they will be likely to do the same thing in every other State which Mahone captures. These anti-Mahone delegations, if they are sent, will apply for admission as regular Republicans, and the Convention will have to decide between them and the Mahone delegations.

Shut out of the Convention, Mahone would have nothing to do but to resort to his second plan, unless the Democrats opened negotiations with him for his delegation—a not improbable contingency. His strongest position, however, would be as the holder of Virginia's 12 electoral votes pledged to any candidate. The next Presidential election is likely to be very close and if as was the case in 1876, the vote of a single state were to decide it, Mahone, with Virginia in his pocket, would be a tremendously important personage. That would be the position which all his hopes are centred upon, for he would then be boss of the whole United States. But the great difficulty for him would be the carrying of Virginia for such an electoral ticket.

THE NATION'S WARDS.

The annual report of Indian Commissioner Price, says a decided advance has been made among the Indians in industrial and school education. It may now be considered settled that the Indian must be taught to work for his own support and to speak English. Among the things needed in solving the Indian problem, are first, an appropriation to survey the boundaries of the reservations, so both Indians and white men may know where they are; second, a law for the punishment of persons who furnish arms or ammunition to Indians. No such law now exists. Third, more liberal appropriations for Indian police; fourth, an appropriation sufficient to defray the expenses of detecting and prosecuting persons who furnish intoxicating liquor to Indians; to confer jurisdiction on the States and Territories over Indian reservations, and make the person and property of the Indian amenable to the law, and give him all the rights in the Courts enjoyed by other persons. The Commissioner will adhere to the policy of allotting lands in severalty. Congress is invited to legislate, to enable Indians to make entries under the homestead law, without cost to them. During the year there was paid to Indians in cash \$745,000. The Commissioner calls

attention to the need of a school for Indians in Alaska. The contract signed last summer with Chief Moses will open up two and a quarter million acres of fine land in Washington Territory.

Death's shadow has fallen astern the Sacramento *Bee* office, and James McClatchy, the veteran chief editor of that journal, has been removed from the chair he has so many years faithfully and honorably occupied. Last evening's *Bee* comes to us with turned pages announcing his death. It occurred at Paraiso Springs, Monterey county, last Thursday. In Mr. McClatchy's death the *Bee* has met with an irreparable loss.

EASTERN DISPATCHES.

Murdered for Money.

WAUSEON, Ohio, October 26. A terrible murder was committed five miles from here on Tuesday night. A farmer named George Williams drove into Wauseon on that afternoon with a load of clover seed, for which he received quite a large sum. After returning home nothing was seen of him or his family by the neighbors for two days, and last evening search was instituted. In a barn was found the corpse of Williams, with the head almost severed from the body. His wife was found in the house with her head split open and brains oozing out, while a six week old infant was found on the bed nearly starved.

Money and valuables known to have been in the possession of the family are missing. Last night the Marshal at Wauseon arrested a man named Johnson, who had in his possession a watch known to belong to Williams, and Johnson was held to answer on a charge of murder.

New York Democracy.

NEW YORK, October 25. The *Sun* appeals for harmony in the Democratic ranks, and predicts great gains, and probably a Republican Senator to choose the next United States Senator. If the quarrel between the city Democracy be stopped the Democratic majority in the State ought to be 50,000. If the quarrels in this city be continued the State may really go Republican, and New York will not be sure to the Democrats in 1884. The *Herold* thinks the bolt of the county Democracy will make the State Republican. The venerable but eccentric Cassius M. Clay writes to the *Sun*: "Ex-President Tilden having declined the nomination, Headley, up to every one of my ideas of success, is the man. Let Headley be our nominee for President in 1884, and the Republicans will go."

A Dishonest Agent.

BOSTON, October 27. A verdict was rendered to-day in the Wheeler administration case of the Alexander estate of Mrs. Abigail Armstrong vs. Warren Blodgett. This bill in equity, on which the administrator seeks to recover securities of the value of upwards of \$350,000, alleged to have been retained by defendant to his own use, while acting as agent for Mrs. Armstrong. Blodgett is indebted to the estate a half million dollars.

Trade Improving.

NEW YORK, October 27. R. G. Dun & Co., of the Mercantile Agency, report that encouraging indications as to the improved condition of business, are not wanting in the events of the week. Exchanges show a marked increase in transactions at many points, and though they may be more or less of a speculative character, the belief is current that there is a good deal of money making under the existing conditions.

A Test Case.

CHICAGO, October 27. In the Superior Court this morning, nominal fine was assessed against John B. Drake, to decide the invalidity of the saloon license issued at \$103 by the city a few days before the State law, making \$500 the fee, became operative. The case goes at once to the Supreme Court.

Pension Attorney Suspended.

WASHINGTON, October 27. Upon the report of the Commissioner of Pensions, the Secretary of the Interior to-day suspended from practice before the Interior Department, Bell A. Lockwood, a female pension attorney of this city.

Justice in Georgia.

ATLANTA, October 27. In the Banks county Ku Klux case, eight prisoners were found guilty on every indictment. They will be sentenced on Monday. Judge McCoy in his charge, was very severe.

Lord Coleridge sailed for England to-day. His son, Gilbert Coleridge remains, and will travel extensively.

The President has issued a proclamation designating Thursday, November 29th, as a day of national thanksgiving.

PARIS October 27.

The conference for the protection of the submarine cable is concluded. The most important feature of the conference was the English proposal that in the event of war, any power to be at liberty to withdraw its right to remission when peace is concluded, and the conference adopted this principle. This means that in the case of war, any power may cut the cables at its own risk and peril, that the cables must take the chances similar to other property.

Portuguese Protest.

LISBON, October 26.

The Geographical Society has addressed a circular to similar societies abroad, protesting against the tone of Stanley's letter relative to affairs on the Congo river, claiming them to be offensive toward Portugal.

They Distract the Army.

MADRID, October 27.

The battalion guarding the ministerial buildings was suddenly replaced to-day, and subsequently disarmed. The battalion is suspected of being in league with the revolutionary party.

J. J. P. Desfresne, engaged in mining in Mexico for the past 20 years, was a fellow passenger with J. A. Robertson from Mazatlan, and flatly denies the statement of Robertson in regard to the ravages of yellow fever at Mazatlan. He said: "To prove that there is no yellow fever, let me state that there are four foreign vessels in Mazatlan harbor now, absolutely free from disease. What you can say is, that the Mexican Government acts shamefully; it is about 400 soldiers at Mazatlan, one third of whom died through want of proper care, though the General, I am informed, requested the removal of the troops, but was refused. If Robertson burned his clothes, I don't know it; what I do know is, that when he arrived he had on the same suit as when he left Mazatlan.

TELEGRAPHIC BREVITIES

The Russian army is showing considerable activity all along the border.

The cholera has reappeared at Faroam, on the west side of the Nile, and at Ziftah.

The mission labors of Moody and Sankey at Cork, Ireland are reported as having been very successful.

Several cases of yellow fever are reported in the interior of Nicaragua. Senator Pio Barrantes was one of its first victims.

On account of the reappearance of cholera in Egypt, passengers from European ports refuse to land. Twenty five cases are reported at Alexandria.

The mysterious death of Maggie Conway in Philadelphia recently, is believed to have been a case of malpractice, and the suspected parties have been arrested.

A mixed company of American, French and Russian capitalists, with a capital of 5,000,000 roubles for the erection of American grain elevators throughout Russia, is talked of.

Judge Barrett's order for the examination of President Villard was practically abrogated to-day, by the transfer of the Northern Pacific Railroad case to the United States Court.

General Gourko, Governor-General of Warsaw, while recently reviewing 75,000 troops in Poland, severely commented upon their inefficiency, and emphasized the urgent necessity for an important reform.

The Naval Advisory Board recommends the immediate construction of seven naval vessels, to cost \$4,283,000; two of the smaller vessels to be built on the Pacific coast. The Board also recommends the completion of the monitors Puritan, Terror, Amphitrite and Monadnock, at a total cost of \$3,500,000.

The Protestant Episcopal Convention adopted a resolution recommending that a portion of the alms and contributions during holy communion be appropriated to support disabled clergymen and the widows and orphans of deceased clergymen. Rev. Mr. Roucker of Texas offered a resolution that the house will not entertain any motion to alter or amend any portion of the prayer-book not recommended to them by the joint committee.

The effect of the late frosts last Spring is being felt by the high price of apples.

F. C. Hoest was arrested last evening for stealing jewelry from Mrs. Bailey of the Big Tree saloon.

The best plug and fine cut tobacco and the finest brands of imported cigars at H. Davis & Son's.

A lady is hard to please who cannot find a Winter hat to suit at the cash dry goods store of S. M. Jamison.

People from the country and from neighboring towns can save \$10 on a Winter suit by buying at the White House.

Another Yankee dinner of pork, beans and brown bread at J. J. Becker's to-morrow. Dinner from 10 until 2 o'clock.

The Romany Rye Troupe went west this morning. They will appear at the California Theatre next Monday evening.

One great secret of the success of A. Lindley & Co., is their willingness to take any farm products in exchange for groceries.

Imported liquors at the same price of domestic, at Chase & Thye's. Billiards, 25 cents for as long a string as you wish to play.

Another of those turkey and chicken dinners for which Lemery & Fontaine have become famous at the Palace restaurant to-morrow.

Stoves and ranges of every description, glass and crockery ware, cutlery and Singer's improved sewing machines at Knowles & Baldwin's.

There is no curfew bell rung by the proprietors of the Palace Hotel; you can go to bed at any hour of the night without the bother of a night key.

There are no artificial means used to make J. D. Pollard's meats look any different from what they really are; he keeps the best of everything in that line.

If you are troubled with a cold, call at the Wine House just before going to bed, take a hot Scotch and go directly home and "turn in," using plenty of blankets.

J. K. Everett is determined not to be undersold by anybody, as you can learn by pricing his groceries—all goods warranted and delivered in any part of the town.

It is now universally believed that a man who uses the kind of beer manufactured by George Becker of the Pacific Brewery, will never become a drunkard.

The serene and satisfied expression of countenance carried by the Levy Brothers, indicates that their new stock of dry goods is going off as fast as they can do them up.

None can justly claim the credit of possessing the most complete and best appointed drug store in the State, for the display at O-burn & Shoemakers is seldom excelled in good sized cities.

The sick and well are equally benefited by taking sea salt baths. All kinds of baths to be had at Coleman & Pechner's; stove in each room, plenty of clean towels and fine soap. Give them a call and clean up.

This being Saturday you want to get around to Belz' barber shop in good time so as not to be obliged to wait your turn. An expert boot-blacker always in attendance, ready to give you an artistic shine and help you put on your overcoat.

PERSONAL.

Colonel F. C. Lord was at the depot this morning.

Senator Fred Dangberg of Douglas is in town to-day.

S. Arnest and wife of Wadsworth are going to Germany to settle up the family estate.

Captain Matt Canavan of the Comstock is reported very ill at San Francisco with inflammatory rheumatism.

The Stanislaus, Cal., News of the 26 inst contains the following: General Kittrell left for his Nevada home last Tuesday. During his short stay amongst our people he made a host of friends. There is a report on the streets that the General thinks of locating at this place. Should he do so he would prove quite an acquisition to the town as well as to the bar, as he stands high as a gentleman of honor and an able lawyer.

A Bad Journey.

News has been received at Nevada City, Cal., that B. A. Valentine doing business at Shanghai, China, recently died at that place. His wife who had been visiting her parents at Nevada City, left two weeks ago to join her husband in China, and will not be made aware of his death until she reaches her journey's end.

Incidency Fires.

At Corvallis, Oregon, late last night, a fire destroyed property valued at about \$15,500, which was insured for \$1,900. Two other fires were in progress at the same time, all said to be incendiary. Much excitement prevails.

ABLY DEFENDED.

Gen. General Kittrell is Regarded by Our Neighbors in California. In speaking of the recent trial of Wood for the murder of Howell at Modesto, Cal., the Stanislaus News says: General Kittrell of Nevada, chanced to be in Modesto, and having other business that would as he thought, bring him back, was retained for the defense. The reputation of the last named lawyer drew a crowded house during the whole of the trial. During the argument the Court-room was completely jammed. District Attorney Simmons opened the case. It was one of Mr. Simmons' finest efforts. His argument throughout showed that he had mastered the details of the case. At the conclusion of his speech, but few believed the prisoner could escape the scaffold. Mr. Simmons was followed by Colonel Lynch for the defendant, who only spoke about three-quarters of an hour. At 3 o'clock General Kittrell commenced his masterly plea for the defendant. He spoke evidently with embarrassment when alluding to the loneliness and apparent desertion of his client by the world. His plea was pathetic and at times even moved part of the jury, as it did the vast audience, to tears. He paid a glowing tribute to the District Attorney, and then turned to review of the testimony. The Court took a recess and a little after 6 o'clock General Kittrell resumed his masterly argument, closing a little after 7 o'clock. It was certainly a magnificent plea. It was eloquent, elevating, graceful and in splendid taste. There was nothing of the rowdy, the belligerent or the black-guard about it. The prosecution closed with about a two hours' speech by W. E. Turner, in which he paid, at the outset, a high compliment to the work, the faithful and able manner in which the District Attorney had handled the case. He also spoke very eloquently of General Kittrell, as the ablest and most eloquent member of the profession on the Pacific coast.

Naches, the Piute chief, has just returned from the northern country, where he has been searching for horse thieves. He says the Indians are loud in their complaints against the new regulations on the railroads between here and the Sink of the Humboldt, and Wadsworth.

The Piutes tell him that under these regulations they are not permitted to carry fish from the Truckee nor fowls from the Sink of the Humboldt to Winnemucca. Naches says that some years ago, soon after the railroad was completed, the railroad men agreed to carry the Piutes and whatever game they might catch or kill, free through Nevada, and that the new order is a violation of that agreement.

Heavy Dealers. Sparks & Tinnin shipped two

trains of cattle from their Nevada range to Chicago, and got top prices, many beef steers sold for a hundred dollars apiece. They are shipping some now to San Francisco. N. H. A. Mason has shipped 132 cars to California since August 21st, and he has 50 car loads more on the way to Winnemucca from the northern range. There will be in all 3,300 head of them. The price is a trifl soft, and it takes good beef to bring 75 cents.

About one animal in eight is classed as prime and brings one cent more; and about one in eight is so inferior that it only brings 50 or 60 cents.

Mr. Mason bought 400 tons of hay in Mason Valley for \$3.50, and 800 tons for \$3.75. He unloads his cattle at Wadsworth, drives them to the valley, a distance of 50 miles and gets them rested and fattened till they just suit him, then drives them back to Wadsworth and ships to San Francisco. He has 500 in the valley now.

Mason Valley Potatoes.

A feature of the Mason Valley Fair was the display of large vegetables. A cabbage weighed 21 pounds, and a turnip tipped the scales at 181 pounds. A carrot three feet in length attracted considerable attention, but not so much as a squash which weighed 106 pounds. A cucumber claimed attention by reason of its weighing nine pounds. A sunflower, two feet across the face had a crowd around it most of the time.

Nuts in California.

Nevada county is producing both Italian and American chestnuts, the trees being remarkably prolific.

The Grass Valley Union says: Mr. Clough of Buena Vista Slide has American chestnuts in bearing, which produce finely-flavored nuts, and are prolific bearers, as many of the nuts contain as high as from 10 to 14 nuts, whereas the hull of the eastern chestnut tree usually bears but three or four nuts.

There are, also, a few shellback hickory nuts grown in this vicinity, and some butternut trees, which are of thrifty growth and have been bearing for several years.

What Do, Arch?

Monsignor Capel was asked what struck him the most forcibly in this country, and he replied: "The precociousness of children." He says that while in Baltimore, the Archbishop took him to call on a lady. While making the visit a 4-year-old boy came into the room, and his mother said: "My son, speak to the Archbishop." He obeyed readily, and, holding out his hand, said: "How do, Arch?"

Heed to Answer.

The Elko Free Press says: Constable T. W. Rule came down from Tuscarora last evening, having in charge Wm Cunningham, who was bound over in the sum of \$1,000 to appear before the next Grand Jury for grand larceny. Falling to secure the necessary bonds he was ordered to the Hotel de Taber until the Grand Jury meets.

A Mistaken Idea.

A party of Englishmen who have been climbing peaks in the Himalayas, and who reached a height of 22,500 feet, report that contrary to popular belief, there is no more difficulty experienced in breathing at that elevation than there is at one-fifth the height above sea level.

It Works Well.

The Carson Appeal says: The Curfew ordinance is working admirably. The gamins fear it and the well-bred youth respect it. It is desirable that the ordinance should be rigidly enforced.

Pending Storm.

Dan De Quilleas a weathersharp, says that last evening his barometer touched as low a point as was reached at any time last winter, indicating the approach of some sort of a blizzard.

HUMBOLDT NOTES.

Items of Interest From Central Nevada.

The following items are from the Silver State of the 26th:

L. L. Hogle, an old settler and prominent citizen of Elko county, died at his ranch in Independence valley last Wednesday of spinal meningitis.

There are 14 horses in training here for the races next week. There are also four or five in Paradise valley, one at Willow Creek, and three that W. B. Todhunter is bringing from the west.

According to reports, the Lang Syne mine at Duane Glen is paying handsomely under the management of Superintendent Ross. The mill works about 15 tons of ore daily, and eight or nine miners take out enough to keep it running. The success of this mine ought to stimulate the Auburn Consolidated Mining Company to exertion. Their mine is situated near the Lang Syne, and their ores are similar, both carrying free gold.

Naches, the Piute chief, has just returned from the northern country, where he has been searching for horse thieves. He says the Indians are loud in their complaints against the new regulations on the railroads between here and the Sink of the Humboldt, and Wadsworth.

The Piutes tell him that under these regulations they are not permitted to carry fish from the Truckee nor fowls from the Sink of the Humboldt to Winnemucca. Naches says that some years ago, soon after the railroad was completed, the railroad men agreed to carry the Piutes and whatever game they might catch or kill, free through Nevada, and that the new order is a violation of that agreement.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, purifies and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Case of Scrofulous Sores. "Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The ulcers were large, sharp, and painful, and offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which have now only a few ulcers left, and my general health greatly improved. I feel very grateful for the good you medicine has done me."

Yours faithfully, MRS. ANN O'BRIAN, 148 Franklin St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brien; also upon the Rev. Z. P. Wild, of 75 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of AYER'S SARSAPARILLA, not only in this, but in his own case, and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N. H., writes, June 5, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, and am now perfectly well. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and specifically cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
